UltraPure®

Our Hypochlorous Acid is manufactured in a pure and stable form that replicates the quality of Hypochlorous Acid made by the white blood cells within the human body. Thus ensuring optimal safety, efficacy and no side effects. This is achieved via our proprietary patented manufacturing process.

WE SIMPLY PROVIDE YOU WITH **PURE HOCl** AT THE SAME LEVEL OF PURITY WHICH IS PRODUCED IN THE BODY.

WHAT IS DIFFERENT ABOUT ULTRAPURE HOCl?

Our manufacturing process replicates the purity of HOCl that is produced within the human body unlike the majority of anolyte and HOCl companies world-wide. Most HOCl or Anolyte companies tend to utilize an outdated process that uses salts and various reactants in their manufacturing process which creates a medium for chlorates, chlorine gas, sodium hypochlorite (bleach) and various other impurities to form. Such impurities are irritants and may cause side effects, reduce efficacy, hamper stability and limit application versatility.

ULTRAPURE HOCl:

NO SALTS

NO BLEACH

NO CHLORATES

NO KNOWN
IMPURITIES

NATURAL

NON-TOXIC

NO SIDE
EFFECTS

NOXMARIA[®]

NOXMARIA IS OUR REVOLUTIONARY WOUND WASH PRODUCT THAT HAS BEEN FORMULATED WITH THE PUREST FORM OF HOCl

ULTRAPURE NOXMARIA WOUND WASH 50ML

- Antibacterial Antiviral and antifungal
- Destroys pathogens on contact on contact

HYDROCOLLOID PLASTERS

VitaPlus Footcare helps eliminate pressure points, offers added protection and helps ease discomfort associated with blisters, corns, calluses, bunions and overlapping toes.

Hydrocolloid acts as a scab by allowing the body to retain fluids that help heal the wounds while still protecting the wound.

When shoes rub, causing the first layers of skin to be removed and a blister to form, VitaPlus Plasters acts like a second skin to: Protect and cushion from rubbing to relieve discomfort. Repel water and dirt. Stay firmly in place for several days. Helps accelerate healing.

ASSORTED PLASTER RANGE

The flexible, waterproof and fabric plasters act as a second skin and protect minor cuts and grazes. The reliable adhesion ensures that the plaster stays in place.

PERSONAL HYGIENE

Practicing good personal hygiene is important for helping keep the body healthy and clean. In people with poor personal hygiene, the body provides an ideal environment for germs to grow, leaving it vulnerable to infection.
